coursework in Computer Science

EXPERIENCE

SENIOR SOFTWARE ENGINEER

ToolCASE | Greenwood Village, Colorado | October 2023 - December 2025

- Developed and maintained Informant, a financial fraud prevention platform used to process high-volume transactions.
- Modernized authentication workflows by migrating legacy login functionality to Symfony security components.
- Refactored legacy Marionette/Backbone code, improving maintainability and reducing technical debt.
- Collaborated with QA, product, and compliance teams to deliver new features and maintain regulatory requirements.
- Improved application performance through code optimization and refactoring initiatives.

SENIOR FRONT END ENGINEER

BreachQuest | Dallas, USA | January 2021 - January 2022

- Developed and maintained front-end features for a cybersecurity SaaS platform using React.
- Collaborated closely with Product Owners and designers to translate requirements into production-ready features.
- Implemented reusable React components and associated unit tests using Jest.
- Participated in Agile ceremonies, code reviews, and sprint planning.

SOFTWARE ENGINEER

Parsons Corporation | Colorado Springs, USA | January 2020 - January 2021

- Developed and enhanced user interfaces for satellite communications systems using React and TypeScript.
- Implemented back-end functionality supporting front-end enhancements.
- Maintained and enhanced a mature enterprise application within a large-scale Agile environment.
- Leveraged the Astro Space UX Design System to ensure consistency across applications.

SENIOR SOFTWARE ENGINEER

GeoPhy | Den Haag, The Netherlands | January 2019 - January 2020

- Developed software solutions that delivered data-driven valuation and risk assessments for multifamily real estate assets.
- Built and enhanced full-stack features using Laravel and Vue.js to provide a cohesive and intuitive user experience.
- Collaborated with cross-functional teams including product, design, and data science to deliver customer-facing functionality.
- Contributed to a proptech platform that was ultimately acquired, helping position the company for a successful exit.
